PROFILE SUMMARY

I am a Full-Stack Developer with a strong focus on .NET Core, MVC, C#, and clean architecture. My expertise lies in building efficient backend solutions and designing Web APIs that are scalable and maintainable. Additionally, I have experience working with ReactJS, NextJS, and TypeScript. My background in the banking sector has strengthened my problem-solving skills and attention to detail.

WORK EXPERIENCE

Full Stack Engineer – PT Kalventis Sinergi Farma   Aug 2024 – Present

- Develop and maintain .NET and ReactJS applications with clean architecture and optimized features.
- Responsible for database design, performance tuning, debugging, and feature implementation.
- Technologies: C#, .NET Core, SQL Server, JavaScript, ReactJS.
- Conduct business analysis to align IT solutions with business goals.

Application Support Engineer - PT NawaData Solution   Jan 2024 – Aug 2024

- Provided SQL support and root cause analysis for business applications.
- Actively participated in issue resolution and improvement of existing systems.

Consumer Business Staff – PT Bank Syariah Indonesia, Bekasi City   Feb 2019 – Nov 2023

- Assisted in the disbursement of consumer financing and ensured timely loan processing.
- Maintained customer financing quality and monitored loan performance.
- Managed end-to-end loan application processes, ensuring compliance with internal policies.

PROJECTS

One Point (2024)
Improved an existing application using .NET MVC Razor and clean architecture, enhancing performance and user experience while aligning business needs with technical solutions

OnePointBooking (2024)
Developed a web-based room booking system using ASP.NET Core with user-based access control, room scheduling, and detailed room management.

Sales Data Warehouse (SDWH Web) - Target Setting (2025)
Built a national sales data management system using .NET MVC, jQuery, Bootstrap, and SQL Server. Designed stored procedures to support dynamic target setting and sales performance analysis.

Zoom Connect (2025)
Created a custom Zoom license booking platform using .NET MVC and JavaScript, integrating Zoom API to automate and optimize usage of Zoom accounts.

Responsive and SEO-Optimized Travel Website (2024)
Developed a modern travel landing page using NextJS, TypeScript, and Tailwind CSS, optimized for performance, SEO, and mobile responsiveness.
